SUMMARY

I'm a dedicated Full Stack Web Developer with a B.Tech in Computer Science. I've built several interactive web applications using React.js, Node.js, Express.js, PHP, MySQL, and MongoDB. Through academic projects and self-learning, I've developed strong skills in problem-solving, backend development, and creating user-friendly, responsive web experiences.

TRAINING

Full Stack Web Developer Trainee

Seed IT Solution

📅 12/2024 - 05/2025   📍 Bhilai, Chhattisgarh

Seed IT Solution is a Bhilai-based institute offering practical web development training through real projects and expert guidance.

- Completed hands-on training in full stack web development with technologies like HTML, CSS, JavaScript, React.js, Node.js, Express.js, PHP, and MySQL.
- Gained practical experience in building responsive, database-driven web applications with real-time functionality and RESTful API integration.
- Worked on multiple real-world projects under expert mentorship, focusing on both frontend and backend development, user authentication, and deployment practices.

PROJECTS

AI Powered Code-Reviewer

🔗 https://github.com/Mitaleedewangan/AI--powered-Code-Reviewer

AI-powered app for code review and suggestions.

- Built an AI-powered code reviewer using React.js, Node.js, and Express.js with a responsive, interactive UI.
- Integrated third-party AI via secure API keys to analyze code for syntax, quality, and best practices.
- Improved review efficiency by 40% through real-time feedback integration and automation.

One-To-One Chat Application

🔗 https://github.com/Mitaleedewangan/One-To-One-Chat-Application

A chat application for real-time communication

- Developed a real-time private chat application using PHP, MySQL, JavaScript, jQuery, and AJAX
- Implemented user authentication, online status tracking, and real-time message updates without page refresh
- Designed an intuitive interface with secure message storage and retrieval

Gemini AI Chatbot Clone

🔗 https://github.com/Mitaleedewangan/Gemini-AI-Chatbot-Clone

AI chatbot using React, Node, and Gemini API integration.

- Built a full-stack AI chatbot using React.js and Node.js, integrating the Google Gemini API for real-time conversations.
- Implemented secure backend communication, error handling, and dynamic UI updates with prompt history and typing animations.
